

Petra Universal Synthetic CVT Conditioner

PN 5003 (12oz) Specification Sheet

Product Description:

Petra Universal Synthetic CVT Conditioner is manufactured to improve anti-wear properties. It is designed to keep seals soft and pliable while promoting smooth shifting. By design, CVT's high speed operation and extreme pressure can cause severe degradation to the CVT fluid. Petra's Synthetic Universal CVT conditioner is formulated to prolong the CVT fluid as well as help prevent or slow down the formulation of deposits.

Advantages & Uses:

- Safe to use in all belt and chain type CVT
- Comparable with all CVT fluids
- Helps prolong the life of CVT fluid
- Helps prevent deposit formulation
- Helps increase performance
- Promotes smooth shifting

Features:

- Improves anti-wear properties
- Keeps seals soft and pliable
- Promotes smooth shifting
- Protects transmission life
